AI INVESTING MADE EASY

- 1.1. What is Cellesti?
- 1.2. Why \$CLLS Token?
- 1.3. Why Invest in AI Start Ups?
- 1.4. \$CLLS Governance
- 1.5. How It Works?

1.1.

What is Cellesti?

Welcome to the Cellesti whitepaper, your guide to the first crypto crowdfunding platform enabling fractional investments in AI startups using \$CLLS tokens. \$CLLS is a deflationary Ethereum (ETH) token created by Cellesti, the platform aiming to revolutionize how AI startups raise funds and engage with their community.

With each investment opportunity minted into an NFT and fractionalized, you'll be able to invest according to your budget while enjoying the benefits of being an early supporter.

Cellesti's NFT marketplace allows AI startups to raise funds and offer reward and equity-based NFTs, while \$CLLS token holders can easily invest in the projects they believe in, creating a unique ecosystem benefiting both parties.

\$CLLS tokens provide a unique investment opportunity for the community of supporters passionate about the growth and success of AI technology startups. The token is deflationary, with a 5% tax on all buys and sells going to a burn wallet, increasing the token's value over time. Additionally, \$CLLS has a 10% sell tax going to a dedicated reward pool, allowing investors to earn rewards by staking their tokens.

1.2. Why \$CLLS Token?

As a ERC20 token, Cellesti (\$CLLS) offers a unique investment opportunity for crypto enthusiasts looking to diversify their portfolios. With a 5% buy and sell tax directed towards a burn wallet and a 10% buy and sell tax allocated to a dedicated rewards pool, \$CLLS holders can earn rewards by staking their tokens, making it an attractive investment for those who believe in the potential growth of space technology startups.

By utilizing \$CLLS on the Cellesti NFT marketplace, investors can easily invest in space startups through fractional investment opportunities, offering rewards and capital-based NFTs. This creates a continuous and efficient investment process that benefits both investors and startups, while the transparency and security of blockchain technology ensure a more democratic and accessible investment ecosystem.

As more investors and startups participate in the Cellesti platform, the demand for \$CLLS is expected to increase, driving up the token's value over time. By holding and staking \$CLLS tokens, investors can benefit from potential price appreciation and earn rewards from the dedicated rewards pool. Overall, Cellesti is a well-positioned deflationary currency to become the new standard for investments in space technology.

At Cellesti, we believe that the intersection of AI technology and crypto presents a unique opportunity for growth and innovation. However, we recognize that traditional investment methods can be inefficient and inaccessible to many. That's why we created the \$CLLS token and Cellesti's NFT marketplace – to create a seamless and efficient investment process benefiting both investors and startups. By leveraging the power of blockchain and smart contracts, Cellesti is creating a more transparent, secure, and democratic investment ecosystem empowering the growth and success of AI technology startups.

1.3. Why Invest in AI Start Ups?

The realm of AI technology is an exhilarating frontier, constantly evolving with boundless potential for innovation and advancement. At its forefront are start-up ventures propelling breakthroughs in areas ranging from machine learning to robotics. Yet, investing in these ventures often poses as a daunting and risky endeavor, especially for those outside the traditional Silicon Valley circles, lacking resources and connections.

Enter Cellesti. Our platform pioneers fractional investment in AI start-ups through \$CLLS tokens, bridging the gap between investors and start-ups, thereby fostering a more accessible and inclusive investment landscape. Harnessing blockchain and smart contracts, we ensure transparency and security, while our NFT marketplace empowers start-ups to raise funds and offer enticing reward and equity-based NFTs.

Investing in AI start-ups not only nurtures their growth and prosperity but also propels the broader development of AI technology, poised to enhance numerous aspects of our lives. With Cellesti and \$CLLS, investors embark on a unique journey, becoming integral contributors to the future of AI technology in a seamless and safeguarded manner.

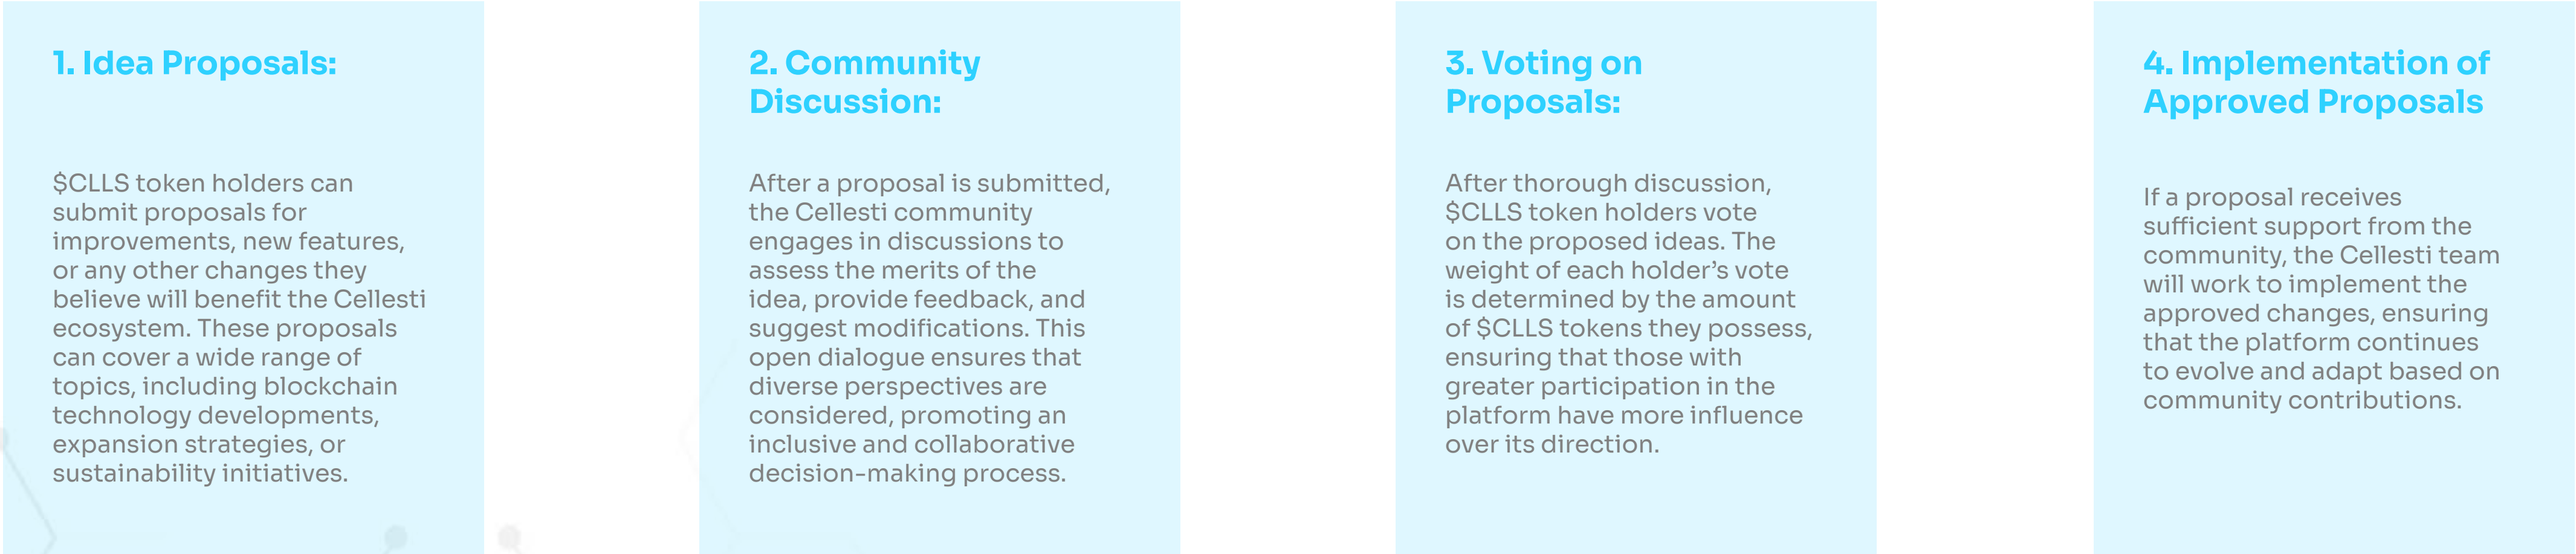

1.4.

\$CLLS Governance

The \$CLLS token from Cellesti has been designed to serve as a governance token, empowering its holders to actively participate in the decision-making processes of the platform. As a governance token, \$CLLS holders will have the ability to propose, discuss, and vote on various aspects related to the development, operation, and future direction of the platform.

Here's how the governance system works:

By transforming the \$CLLS token into a governance token, Cellesti is creating a more democratic and community-centered ecosystem. This new function encourages active participation from token holders, enabling them to shape the future of the platform and contribute to the growth and success of initiatives in the blockchain technology space.

1.5.

How it works?

In the Cellesti ecosystem, our exclusive cryptocurrency plays a crucial role in the investment process for space technology projects.

Here's how it works:

In summary, the Cellesti NFT market connects space technology projects with potential investors through the innovative use of NFTs and \$CLLS tokens, creating a mutually beneficial ecosystem that supports the growth and success of space initiatives, while offering investors unique and valuable opportunities.

2/5

ECOSYSTEM AND TECHNOLOGY

- 2.1 Cellesti Swap
- 2.2. Cellesti DAO
- 2.3. Cellesti Files
- 2.4. Built on Ethereum

2.2. Cellesti Swap

We are committed to providing our users with the tools and services necessary to maximize their engagement and investment opportunities within the AI technology sector. One of the key features of our platform is Cellesti Swap, a seamless and efficient token swap service designed to enhance the user experience and facilitate the exchange of \$CLLS tokens.

What is Cellesti Swap?

Cellesti Swap is an integrated token swap feature that allows users to easily exchange their \$CLLS tokens with other cryptocurrencies directly on our platform. This service is designed to be user-friendly, secure, and efficient, enabling seamless transactions without the need for third-party exchanges.

User-Friendly Interface

Cellesti Swap offers an intuitive and easy-to-use interface, making it simple for users of all experience levels to swap tokens quickly and efficiently.

Security

Our platform prioritizes the security of your assets. Cellesti Swap is built with robust security protocols to ensure that all transactions are safe and secure.

Efficiency

Enjoy fast transaction processing times, allowing you to swap tokens with minimal delays.

Direct Integration

Cellesti Swap is fully integrated into the Cellesti platform, providing a seamless experience for users looking to engage with our ecosystem.

2.3.

Cellesti DAO

DAO is a decentralized governance structure that allows \$CLLS token holders to participate in decision-making that affects the platform. Through the DAO, community members can propose and vote on changes, ensuring that Cellesti's evolution is collectively driven.

Main Features of Cellesti DAO:

Decentralized Governance: All \$CLLS token holders have the opportunity to propose and vote on changes and updates to the platform.

Transparency: All proposals, votes and decisions are recorded on the blockchain, providing full transparency and accountability.

Community Engagement: Cellesti DAO encourages active community participation, ensuring that users' voices are both vital and strategic considerations.

Democratic Decision Making: Decisions are made based on community consensus, promoting a democratic and inclusive approach to platform governance.

How to participate in Cellesti DAO:

- 1. Own \$CLLS Tokens:** To participate in the Cellesti DAO, you must own \$CLLS tokens. The more tokens you have, the greater your voting power.
- 2. Access the DAO Platform:** Log in to your Cellesti account and navigate to the Cellesti DAO section. (Shortly)
- 3. Propose Changes:** If you have an idea or suggestion to improve the platform, you can submit a proposal to the DAO.
- 4. Vote on Proposals:** Review the proposals submitted by the community and vote for the ones you support. Your vote will be helpful in determining which changes will be groundbreaking.
- 5. Track Decisions:** All decisions and updates approved by the DAO will be approved on the platform and communicated to the community.

2.3. Cellesti Files

We are pioneering an AI-powered fraud detection system to combat the issue of false transactions in the cryptocurrency market. This cutting-edge system harnesses the capabilities of artificial intelligence to accurately identify and eliminate fraudulent activities, ensuring that transaction volumes reflect true market dynamics. Leveraging sophisticated machine learning algorithms and behavioral analysis, our system proactively detects anomalies and suspicious transactions, allowing only accurate and verifiable data to be considered.

2.4. Built on Ethereum

\$CLLS is constructed on the Ethereum blockchain, capitalizing on the advantages of this robust technology to establish a seamless and secure investment environment for AI start-ups and investors. Ethereum's formidable smart contract capabilities empower Cellesti to develop a transparent and democratic NFT marketplace, facilitating fractional investment in AI start-ups using **\$CLLS** tokens. Our NFT marketplace adheres to the ERC721 standard, furnishing a plethora of benefits to both investors and start-ups, including enhanced flexibility, interoperability, and functionality.

Looking ahead, we are dedicated to broadening our investment ecosystem by transitioning to a multichain approach in the current quarter of 2024. This strategic move will enable us to harness the unique capabilities of various blockchain platforms, thereby creating a more accessible and diverse investment ecosystem for our community of supporters. As we persist in our journey of growth and innovation, our commitment to harnessing the power of blockchain and smart contracts remains unwavering, empowering the progression and prosperity of AI technology start-ups.

\$CLLS TOKEN

- 3.1. Token Information
- 3.2. Tax and Purpose
- 3.3. Staking \$CLLS
- 3.4. Vesting
- 3.5. How to Buy \$CLLS?

3.1. Token Information

Name:

Cellesti

Ticker Symbol:

\$CLLS

Total Supply:

1,500,000,000

Initial Presale Price:

\$0.007

Chain:

Ethereum (ERC20)

Total Presale Tokens:

975,000,000

Expected Launch Price:

0.0308

The following below is the \$CLLS token distribution:

3.2.

Tax & Purpose

\$CLLS Buy and sell tax structure is designed to benefit both token holders and the broader Celesti community. \$CLLS has a 5% total Buy tax and a 10% total Sell tax, with a portion of these taxes going towards various initiatives that will benefit the platform and its community of supporters.

Of the 5% buy tax, 2% goes directly to the reward pool for stakers, creating a strong incentive for **\$CLLS** holders to hold and stake their tokens. Additionally, 1% goes to liquidity, ensuring that there is a robust and accessible market for **\$CLLS** tokens. 1% goes to marketing, allowing us to spread the word about the benefits of **\$CLLS** to a wider audience. Finally, 1% goes to burn, reducing the total supply of **\$CLLS** over time and potentially driving up the token's value.

For the 10% total sell tax, 5% goes directly to the reward pool, incentivizing **\$CLLS** holders to continue to hold and stake their tokens. 1% goes to liquidity, ensuring that there is a strong and accessible market for \$CLLS tokens. 3% goes to marketing, enabling us to continue to spread the word about **\$CLLS**. Finally, 1% goes to burn, reducing the total supply of **\$CLLS** and helping to increase its value over time.

Overall, the buy and sell tax structure of **\$CLLS** is designed to benefit both token holders and the broader Celesti community, creating a transparent and democratic investment ecosystem that empowers the growth and success of AI technology start-ups. By leveraging the power of blockchain and smart contracts, we're creating a new standard for investing in AI, one that benefits everyone involved.

Buy Tax 5%: Rewards Pool: 2% Liquidity 1% Marketing 1% Burn 1%

Sell Tax 10%: Rewards Pool: 5% Liquidity 1% Marketing 3% Burn 1%

3.3. Staking \$CLLS

Staking your \$CLLS tokens on the Cellesti platform presents a multitude of advantages, chief among them being the opportunity to accrue rewards from the dedicated reward pool.

Through token staking, you actively bolster the network's security and enhance its overall efficiency, all the while contributing to the advancement and triumph of AI technology start-ups. Moreover, as the quantity of staked \$CLLS increases, the circulating supply diminishes, potentially propelling the token's value upwards over time. In essence, staking \$CLLS emerges as a prudent investment decision for individuals who harbor faith in the future of AI technology and aspire to earn rewards while fostering its expansion and prosperity.

3.4. Vesting

Token vesting is a mechanism designed to ensure that newly minted tokens are released into circulation gradually over time, rather than flooding the market all at once. This strategy serves to mitigate abrupt price fluctuations and market volatility, fostering a more controlled and transparent investment environment.

At Cellesti, we have opted to implement a 12-week vesting period for the \$CLLS token. This deliberate approach enables us to incrementally introduce new tokens into circulation, thereby fostering a stable and sustainable market for our investors. By adopting this method, we aim to cultivate trust and confidence within our investor community, thereby affirming the \$CLLS token as a robust and dependable investment avenue for those who harbor optimism for the future of AI technology.

Through this prudent and calibrated approach to token distribution, we strive to establish a sustainable and enduring investment ecosystem that delivers benefits to all stakeholders involved.

How to buy \$CLLS?

Step 1

Connect your Wallet

- 1 Press the Connect Button:**
 - Locate and click on the "Connect" button on the website.
- 2 Choose a Wallet:**
 - Select one of the many supported wallets from the list that appears.
 - Follow the prompts to complete the connection process.

Step 2

Buy with ETH, USDT, or Bank Card

- 1 Select Your Payment Method**
 - Choose ETH, USDT, or a bank card as your preferred payment method.
- 2 Choose ETH, USDT, or a bank card as your preferred payment method.**
 - If using ETH or USDT, enter the amount you wish to use and follow the on-screen instructions to complete the transaction.
 - If using a bank card, select the bank card option, enter your card details, and follow the prompts to complete the purchase.

Step 3

Claim Your Celesti Tokens

- 1 Wait for Pre-sale Completion**
 - Once the pre-sale has been completed, you will be able to claim your tokens.
- 2 Claim Your Tokens**
 - The "Claim" button will be marked as "Coming Soon" until the pre-sale is complete.
 - When the button becomes active, click on it and follow the on-screen instructions to claim your Celesti tokens.

The background features a dark teal to black gradient with a complex network of thin, light blue lines connecting small dots, creating a web-like or molecular structure. The dots and lines are more prominent on the left side and fade towards the right.

MADE FOR AI TECH STARTUPS

- 4.1. Our Mission
- 4.2. Motivation
- 4.3. Cellesti Services
- 4.4. Apply for Funding

4.1.

Our Mission

Our mission is to cultivate a transparent and inclusive investmentecosystem that empowers the advancement and prosperity of AI technology start-ups. At Cellesti, we are deeply impassioned by innovation and the transformative potential of AI technology to revolutionize the world. We firmly believe that by facilitating access to funding opportunities, investor networks, marketing and branding assistance, as well as educational and training initiatives, we can propel AI tech start-ups towards thriving success.

Our NFT marketplace presents a distinctive investment avenue for AI tech start-ups, granting them access to a diverse spectrum of investors within our community. By listing your investment NFT on the Cellesti marketplace, you unlock an array of benefits, including enhanced exposure to a broader investor audience and access to the invaluable support and guidance of our seasoned team of industry experts. We are steadfast in our commitment to nurturing a just and equitable investment ecosystem that champions the growth and triumph of AI technology start-ups, and we cordially invite you to embark on this exhilarating journey with us.

4.2. Motivation

Cellesti developers were motivated by the need to create an ecosystem of more inclusive and accessible investment for AI startups. They observed that many of these innovative ventures face major challenges in obtaining financing, or that impede their growth and development. With Cellesti, they saw the opportunity to use technology blockchain and NFTs to democratize access to investing, allowing investors of all backgrounds Participate and share the successes of startups.

The creation of the \$CLLS token was a direct response to the desire to ensure secure, transparent transactions and efficient within the platform. Developers also want to encourage participation continuous investment of investors, introducing reward and governance mechanisms that not only increase the attractiveness of \$CLLS, but also allow investors themselves to have a voice in future platform decisions.

Finally, concern for the security and integrity of investments was a central application. By implementing rigorous audits and KYC checks, developers sought to create a environment of trust where investors have discovered that they feel safe allocating their resources in promising startups.

4.3. Cellesti Services

Cellesti offers an array of comprehensive services tailored to bolster the growth and triumph of AI tech start-ups. Our steadfast commitment lies in fostering a transparent and equitable investment ecosystem that empowers the advancement of AI technology ventures.

At Cellesti, we are dedicated to nurturing the growth and prosperity of AI tech start-ups through a holistic suite of support services. Join us as we embark on this transformative journey towards a brighter future powered by AI innovation.

4.4. Apply for Funding

At Cellesti, we're dedicated to supporting the growth and success of AI technology start-ups. If you're an AI tech start-up looking to raise funds and engage with your community, we invite you to apply to be listed on our NFT marketplace. Our platform offers a unique investment opportunity for start-ups, allowing you to offer rewards and equity-based NFTs to our community of investors using the \$CLLS token.

As a listed start-up on the Cellesti platform, you'll have access to a range of resources and support services, including mentorship and guidance from experienced industry professionals, access to funding opportunities and investor networks, legal and accounting support, research and development support, marketing and branding support, and education and training programs.

To apply for listing on the Cellesti NFT marketplace, simply visit our online portal and fill out the application form. Our team will review your application and get in touch with you to discuss your project and investment needs. We're committed to creating a transparent and democratic investment ecosystem for AI technology start-ups, and we look forward to working with you to help accelerate your growth and success.

KEY INFORMATION

- 5.1. Contact Address
- 5.2. Audit
- 5.3. Roadmap
- 5.4. FAQs
- 5.5. Disclaimer
- 5.6. Contact Us

5.1. Contract Adress

Cellesti Token, the owner of \$CLLS, is an entity organized under the laws of the State of Wyoming. The company has authorized the issuance of one and a half billion (1,500,000,000) shares of its Series A Preferred Stock. Each \$CLLS token represents one share of the Preferred Stock. The company will issue one share of the Preferred Stock for each \$CLLS token sold. The company will set aside and create a reserve, precluding the company from issuing any of the Preferred Stock in the absence of issuing a corresponding \$CLLS token.

The Cellesti tokens will be generated on the Ethereum (ERC20) blockchain. Only those holding a \$CLLS token will be granted access to the Cellesti Investments platform. The Cellesti tokens may continue to be sold by the company until the total supply has been met.

5.2. Audit

In our quest to ensure maximum security and transparency for Cellesti's platform and its users, we have prioritized thorough auditing and compliance processes.

We have taken the necessary steps to ensure the robustness and safety of our protocol. Our smart contracts have undergone comprehensive audits by a leading cybersecurity company in the blockchain space - Certik. This independent audit has been conducted to verify the security of our platform, to identify and rectify any potential vulnerabilities, and to ensure our code operates as intended. This rigorous auditing process reflects our commitment to maintaining a secure environment for our users.

In addition to the protocol audits, we have instructed Block Audit, a highly reputed company in the blockchain industry, to perform our KYC procedure. This is a crucial step in ensuring the utmost confidence in the Cellesti Project.

At Cellesti, we firmly believe in the values of transparency, safety, and trust. Our commitment to these audits and compliance procedures serves to build confidence among our users and stakeholders, reinforcing our promise of creating a secure, reliable platform for investing in AI technology start-ups.

Roadmap

Stage 1

- Team Formation
- Cellesti's business development strategy
- Website development + Launch
- Smart contract development
- \$CLLS token audit
- \$CLLS token deployment on Ethereum chain
- Phase 1 Marketing initiates
- Launch public presale

Stage 3

- Launch of Launchpad NFT Marketplace
- \$CLLS launch on exchanges
- Launch of Staking Dapp
- Launch First AI Tech Opportunities
- IOS & Android app development
- First Partnerships

Stage 5

- Launch of Cellesti DAO
- Cross-chain expansion
- Further Partnerships
- Launch Cellesti Academy
- First Networking events
- More Partnerships announced

Stage 2

- Beta Staking Dapp
- Beta Cellesti Swap
- Phase 2 marketing campaign
- Beta development of NFT investment marketplace

Stage 4

- Coin Market Cap Listing
- Coin Gecko Listing
- Listing on centralized exchanges
- Launch of Cellesti Swap
- Further Marketing

5.4. FAQs

What is Cellesti token?

Cellesti is a crypto crowdfunding NFT platform that allows users to invest in AI start-up projects using Fiat and Crypto. The NFT marketplace enables start-ups to raise funds and engage with their community by offering reward and equity based NFTs.

How I do a purchase Cellesti token from Presale?

\$CLLS tokens can be purchased during the presale period through the Cellesti website using ETH, USDT, BTC and many more supported cryptocurrencies.

What is the minimum purchase amount for \$CLLS tokens?

The minimum investment amount for \$CLLS tokens is \$50.

How are the start-up projects evaluated before being listed on the platform?

Start-up projects are evaluated based on their potential for growth and success, as well as their alignment with Cellesti's values and mission.

Which Blockchain network is Cellesti token on?

Cellesti is built on the Ethereum (ETH), leveraging its speed, usability and compatibility with decentralized applications to create a seamless user experience.

How do I claim my tokens?

Once the presale ends, you just need to connect your wallet and press the claim button. Once the transaction is complete, import the Cellesti token address into your wallet and you'll be able to see your tokens.

How can I storage and manage my Cellesti tokens?

Cellesti tokens can be stored and managed in compatible cryptocurrency wallets. We recommend using wallets that support Ethereum, such as MetaMask or Trust Wallet.

5.5. Disclaimer

Cryptocurrency investments carry a high risk of volatility. Be aware of the tax implications, as profits may be subject to capital gains or other taxes in your jurisdiction. Cryptocurrency regulations can vary, so ensure you understand the rules in your area. Conduct thorough research and invest only what you can afford to lose.
